

Mounting Plate Spacer Assembly Instructions

Item #AR240079

1

The AD2 Mounting Plate Spacer as it appears when delivered to the customer.

2

Remove the lower mounting plate knob from the articulator by pulling down on it while turning counter clockwise.

3

Remove the mounting knob and allen screws from the plate spacer.

4

Attach the plate spacer to the lower articulator frame with the two allen screws.

5

Thread the mounting knob supplied with the plate spacer thru the lower articulator frame and spacer plate.

6

The installation is now complete and should look like the picture above.
